

Therapy for All Patients in All Situations

Dear colleague,

Since the start of our association more than 100 students and volunteers collaborate with us.

Also you went to one or more of our TAPAS projects to do some volunteer work or practice.

We are very grateful for that.

Last year (2011) TAPAS has become an official association with administrative seat in Zaragoza (Spain).

This means a start of an ongoing commitment to send students and volunteers to our projects that we have until now and will have in the future.

The projects we have until now are:

- Jan Pawla II institute , Jazskotle, Poland
- El Cotelengo de Don Orion, Claypole, Argentina
- Lights of Hope, Calcuta, India
- Fundación pedagógica Cristal, Esteli, Nicaragua
- Centro Juvenil, Los Pipitos, Esteli, Nicaragua

Besides of sending students and volunteers to those projects we are also making work of giving formation and conferences about occupational therapy and special therapy methods useful in our projects.

On a yearly base we organize conferences to create a meeting place for all those who were and still are involved and interested in TAPAS activities and projects.

Therefore we invite you to become member of the TAPAS association.

One ever you want to collaborate in one of our projects again you can count again on our support to make this wish possible again.

We will also send you an electronic newsletter about the development of our association and projects.

You can do that by putting €10 on our account: TAPAS

Caja Navarra IBAN : ES22 2054 0344239163417275 SWIFT: CANVES2P

We thank you for your sympathy and support.

Patricia Jovellar, Cristina de Diego Alonso, Luc Vercruyssen
